Such rentals may, at the option of Lessee, be paid quarterly or annually. In like manner and upon like payments or tenders, the commencement of operations for a well may be further deferred for periods of the same number of months within the primary term of this lease. In the event this lease shall be assigned as to a part or as to parts of the above described lands, and the holder or owner of any such parts shall fail or make default in the payment of its proportionate part of the delay rental, such default shall not operate to defeat or affect this lease insofar as it covers a part or parts of said land upon which Lessee or any assignee hereof shall make due payment of said rentals.

9.) Lessor hereby warrants and agrees to defend the title to the land herein described and agrees that Lessee, at its option, may pay and discharge any taxes, mortgages, or other liens existing, levied, or assessed on or against the said lands and production and, in the event it exercises such option, it shall be subrogated to the rights of any holder thereof and may reimburse itself from any payments due hereunder.

10.) This lease shall be subject to governmental rules or regulations, and this lease shall not be terminated, in whole or part, nor shall Lessee be held liable in damages, for failure to comply herewith, if compliance is prevented by, or such failure is the result of, any such law, rule or regulation. No such unit shall embrace more than 160 acres; provided that if any governmental regulations shall prescribe a spacing pattern for the development of the field, then any such unit may embrace as much additional acreage as may be so prescribed. Operations upon and production from the unit shall be treated as if such operations were upon or such production were from the leased premises whether or not the well or wells are located thereon, provided, however, that Lessee shall pay Lessor, in lieu of other royalties thereon, only such proportion of the royalties stipulated in paragraph 4 as the amount of his acreage placed in the unit, or his royalty interest therein on an acreage basis, bears to the total acreage in the unit, and provided further that Lessor may take free gas as provided in paragraph 7 hereof from a unit well only if said well is located on lands actually owned by Lessor.

12.) Following completion of any producing well, Lessee shall a) fill all the pits used during drilling which are not required either for production purposes or by any government regulations; b) remove all concrete bases, drilling supplies and drilling equipment; and c) grade, plant and seed the area disturbed by drilling that is not required in production of the well, where necessary to bind the soil and prevent substantial erosion and sedimentation.

13.) Lessee may at any time surrender all or any part of this lease by delivering or mailing a release thereof to Lessor, or by placing a release of record in the proper county. After a partial surrender, the rental and shut in payments specified above shall be proportionately reduced on acreage basis.

14.) This lease and all its terms, conditions and stipulations shall extend to and be binding on all heirs, successors and assigns of Lessor or Lessee. This lease contains all of the agreements and understandings of the Lessor and the Lessee respecting the subject matter hereof and no implied covenants or obligations, or verbal representations or promises, have been made or relied upon by Lessor or Lessee supplementing or modifying this lease or as an inducement thereto.

15.) Should a well be drilled on Lessor's premises, and Lessee deems well to be a dry hole, Lessor shall have first right of refusal to buy the well bore at salvage value. Before plugging any producing well(s) on Lessor's premises, Lessee shall offer Lessor the first right of refusal to buy said well(s) at salvage value.

16.) Lessor shall be entitled to copies of any and all geophysical well logs from any well(s) drilled on Lessor's premises.
